

## Agip Cross 2T

### API TC

**Agip Cross 2T** is a fully synthetic two-stroke oil for extremely loaded 2-stroke engines of Motorbikes that are used in cross, trial, enduro sports. Het product is speciaal ontwikkeld voor het gebruik in cross, trail en enduro motorfietsen

#### Characteristics (typical figures):

| SAE                |                    | 40   |
|--------------------|--------------------|------|
| Viscosity at 100°C | mm <sup>2</sup> /s | 12,6 |
| Viscosity at 40°C  | mm <sup>2</sup> /s | 95   |
| Viscosity index    |                    | 137  |
| Pourpoint          | °C                 | -42  |
| Flashpoint o. C.   | °C                 | 80   |
| Density at 15°C    | kg/m <sup>3</sup>  | 915  |

#### Properties and Performance:

- ⇒ **Agip Cross 2T** has been developed with a very modern synthetic base oil, which ensures excellent engine performance also at highest temperatures. It guarantees highest cleanliness of all engine parts and excellent wear protection.
- ⇒ The product has excellent detergent properties that reduce the formation of sludge and deposits at all engine parts and protect from ring sticking.
- ⇒ It had been formulated with selected synthetic base oils and a special additive package, to achieve this excellent performance.

#### Applications:

**Agip Cross 2T** is suitable for oil-in-gasoline lubrication and separate lubrication (oil-injection). It can be used in unleaded fuel.

Please observe the manufacturer's specifications when selecting products!

#### Specifications

**Agip Cross 2T**, meets or exceeds the requirements of the following specifications.
